Section 1 – Introduction

This directory provides a list of Medica Prime Solution’s network providers. To get detailed information about your health care coverage, please see your Evidence of Coverage.

The network providers listed in this directory have agreed to provide you with your health care services. You may go to any of our network providers listed in this directory. Other providers are available in our network.

Our plan does not require enrollees or their providers to obtain a referral or authorization from our plan as a condition for covering medically necessary services that are covered by our plan. If you have any questions about whether we will pay for any medical service or care that you are considering, you have the right to ask us whether we will cover it before you get the service or care.

If you receive Medicare-covered services from an out-of-network provider, Original Medicare will cover the services, not our plan. You will be responsible to pay Original Medicare’s cost-sharing amounts. If the provider bills you directly, please submit it first to our plan for processing and determination of how much will be your responsibility.

Emergency care may be obtained in or out of the service area from the nearest available provider, including outside the United States.

You must use plan providers except in emergency or urgent care situations. If you obtain routine care from out-of-network providers, neither Medicare nor our plan will be responsible for the costs.
