# Section 1 - Platinum Blue Introduction

This directory provides a list of Platinum Blue's in network providers. To get detailed information about your health care coverage, please see your Evidence of Coverage.

All providers listed in this directory are contracted with Blue Cross Blue Shield of MN and have agreed to provide you with your health care services as an in-network provider.

Platinum Blue Cost plans do not require members to obtain a referral or authorization (except for some Durable Medical Equipment as listed in your Evidence of Coverage) for medically necessary services covered by the plan. You have the flexibility to change providers at any time. If you have any questions about whether your plan covers a medical service or care that you are considering, you have the right to contact the plan before you get the service or care.

You may get services from out of network providers. We will then pay any applicable Medicare coinsurance and deductibles for covered, medically necessary services on your behalf (excluding copayments). If an out-of-network provider sends you a bill that you think we should pay, please contact Customer Service. Generally, it is best to ask an out-of-network provider to bill Original Medicare first, and then to bill us for the remaining amount.

Routine care received from an out-of-network provider within Minnesota will not be covered by our plan. In these cases, you will pay the cost-sharing amounts under Original Medicare.

Your plan includes a supplemental extended absence benefit, also called a travel benefit. This allows you to have continued coverage from your plan when you are out of the service area (but within the United States and its territories) for up to nine months.

If you experience a medical emergency, you can get emergency medical care worldwide. Platinum Blue covers ambulance services in situations where getting to the emergency room in any other way could endanger your health. If you have an emergency, your plan will speak with the doctors who are providing the emergency care to ensure

your follow-up care is not disrupted. The doctors who are providing the emergency care will determine when your condition is stable and the medical emergency is over. After the medical emergency, you should see follow-up care to ensure your condition remains stable in your plan service area. Your follow-up care will be covered by the plan. If your emergency care is provided by out-of-network providers, we will arrange for network providers to take over your care as soon as your medical condition and circumstances allow.

You should always try to obtain urgently needed services from network providers. However, if network providers are unavailable, inaccessible, or you are outside the service area, and it is not reasonable to wait to obtain care from your network provider, we will cover urgently needed services received from an out-of-network provider but within the United States and its territories. Your plan does not cover urgently needed services, or any other non-emergency care if you receive care outside of the United States and its territories.

In addition, you can obtain dialysis treatment from any qualified dialysis provider even if out of the service area.

We feature a large network of health care providers. Each provider is an independent contractor and is not our agent.
